Excellent historical read on the development and state of cities in the world, taken city by city. The chapter on the history and state of Mexico City is mind boggling. Cities are the product of human reasoning applied to our environment. So too can cities be judged according to reasonable criteria.

A connoisseur's romp through cities good and bad, all judged by the author. Kunstler is a potent enemy of modernism. Armed with a wicked style and absolute confidence in his worldview—"Surely even educated people are weary of being on the cutting edge all the time"—he adds this collection of short, interlinked essays to his growing series (Home from Nowhere, 1996) on what makes or ...
