The Future Of Learning Institutions

The Pandidakterion of Constantinople, founded as an institution of higher learning in 425, educated graduates to take on posts of authority in the imperial service or within the Church. It was reorganized as a corporation of students in 849 by the regent Bardas of emperor Michael III, is considered by some to be the earliest institution of higher learning with some of the characteristics we ...

Ancient higher-learning institutions - Wikipedia

The Edge Foundation conducts ground-breaking research on the future of education, but we also want to put this into practice, showing how some of the approaches from leading educational institutions and projects around the world can help to transform learning.

Edge Future Learning | Edge Foundation

In today's world, organizations that fail to adjust their learning management practices and solutions often struggle with organizational growth or productivity. As a result, leading companies are abandoning traditional methods of learning in favor of more effective solutions—often involving technology innovation—that engage talent and improve performance.

5 Trends for the Future of Learning and Development ...

A Crucible Moment calls on educators and public leaders to advance a 21st century vision of college learning for all students—a vision with civic learning and democratic engagement an expected part of every student's college education. The report documents the nation's anemic civic health and includes recommendations for action that address campus culture, general education,

A Crucible Moment: College Learning & Democracy's Future ...

Learning can and does happen anywhere. Sometimes that learning occurs in classrooms (formal learning), other times it results from face-to-face and virtual encounters and interactions between individuals away from lecture halls and seminar rooms (social or informal learning). Space – whether physical or virtual, individual or shared – can have an important impact on learning.
