Study the functions of the human skeleton and muscular systems with BBC Bitesize KS3 Science.

### **Skeletal and muscular systems - Test - KS3 Biology - BBC ...**

Hair is an accessory organ of the skin made of columns of tightly packed dead keratinocytes found in most regions of the body. The few hairless parts of the body include the palmar surface of the hands, plantar surface of the feet, lips, labia minora, and glans penis. Hair helps to protect the body from UV radiation by preventing sunlight from striking the skin.
