Form follows function is a principle associated with 20th-century modernist architecture and industrial design which says that the shape of a building or object should primarily relate to its intended function or purpose.

## **Form follows function - Wikipedia**

So many legends, so little time. Rick Grefe has asked me to speak briefly on the value of continuity in our profession. Of course one could take that charge to mean the short history of design, perhaps beginning with Peter Behrens, who is credited with invention of identity programs and coordinating graphic and industrial design activities.
