It's consequently agreed simple and appropriately fats, isn't it? You have to favor to in this reveal

The Interpretation Of Cultures Clifford

Clifford James Geertz (/ ɡ ɜːr t s / ()); August 23, 1926 – October 30, 2006) was an American anthropologist who is remembered mostly for his strong support for and influence on the practice of symbolic anthropology, and who was considered "for three decades...the single most influential cultural anthropologist in the United States." He served until his death as professor emeritus at the ...

Clifford Geertz - Wikipedia

In the social science fields of anthropology, sociology, history, religious studies, human-centered design and organizational development, a thick description results from a scientific observation of any particular human behavior that describes not just the behavior, but its context as well, so that the behavior can be better understood by an outsider.

Thick description - Wikipedia

The word culture, from the Latin root colere (to inhabit, to cultivate, or to honor), generally refers to patterns of human activity and the symbolic structures that give such activity significance. Different definitions of "culture" reflect different theoretical orientations for understanding, or criteria for valuing, human activity.

New Criticism. A literary movement that started in the late 1920s and 1930s and originated in reaction to traditional criticism that new critics saw as largely concerned with matters extraneous to the text, e.g., with the biography or psychology of the author or the work's relationship to literary history.

Les musées jouent un rôle majeur dans la structuration de la discipline. Au cours du XIX^e siècle, les artefacts des cultures non occidentales, auparavant disséminés dans les collections des cabinets de curiosités de l'aristocratie européenne, sont progressivement regroupés et exposés dans des sections spécifiques des musées, avant de jouir de lieux d'exposition propres.
