"The Descent of Man" (the title is from Darwin) is a short book that remixes a good deal of academic feminist thinking about braying masculinity. Little in it is truly original.

Grayson Perry's 'The Descent of Man': Deconstructing the ...

Man has also some few instincts in common, as that of self- preservation, sexual love, the love of the mother for her new-born offspring, the desire possessed by the latter to suck, and so forth. But man, perhaps, has somewhat fewer instincts than those possessed by the animals which come next to him in the series.

The Descent of Man - Jim

This is especially true of The Descent of Man and Selection in Relation to Sex, Darwin's second most important work. This edition is a facsimile reprint of the first printing of the first edition (1871), not previously available in paperback.

The Descent of Man, and Selection in Relation to Sex on JSTOR

Descent that he was going to consider, "whether man, like every other species, is descended from some pre-existing form." (Darwin 1989 (1877), p. 2) The phrase "like every other species" signals the source of the problem. One could not take for granted, after all, that humans truly are like every other species.

Moral Darwinism: Ethical evidence for the descent of man

This book is a summary of The Descent of Man published by Charles Darwin in 1871. Introduction [edit] In his introduction to The Descent of Man , Darwin states that he wrote this book because of the wide acceptance the concept of natural selection had received following the publication of The Origin of Species.

Descent of Man [1871] Charles Darwin [1809 - 1882]. Chapter V - On the Development of the Intellectual and Moral Faculties THE subjects to be discussed in this chapter are of the highest interest, but are treated by me in an imperfect and fragmentary manner.

Charles Darwin - Descent of Man - Chapter 5 - Atheism

The book on humanity and sexual selection, The Descent of Man, was published in 1871. Darwin expected it to cause a sensation with its claims that humans were descended from other animals, but most of the thunder had been stolen twelve years ago by the Origin. In 1872, The Expression of Emotions in Animals and Man was published.

In The Descent of Man (1871, 1874) Charles Darwin (1809-1882) focused special attention on the origin and history of our own species, a subject he had avoided in his previous writings on evolution. He claimed that the human animal is closest in ancestry to the two African "pongids," or anthropoid apes (chimpanzees and gorillas).
