The Subtle Body An Encyclopedia

A subtle body is one of a series of psycho-spiritual constituents of living beings, according to various esoteric, occult, and mystical teachings. According to such beliefs each subtle body corresponds to a subtle plane of existence, in a hierarchy or great chain of being that culminates in the physical form.. The subtle body (Sanskrit: sūkṣma śarīra) is important in several Indian ...

This heretical doctrine is an attempt to hold the Real Presence of Christ in the Holy Eucharist without admitting Transubstantiation. According to it, the substance of Christ's Body exists together with the substance of bread, and in like manner the substance of His Blood together with the substance of wine. Hence the word Consubstantiation. How the two substances can coexist is variously explained.

René Descartes (1596—1650) René Descartes is often credited with being the "Father of Modern Philosophy." This title is justified due both to his break with the traditional Scholastic-Aristotelian philosophy prevalent at his time and to his development and promotion of the new, mechanistic sciences.

In the past, death has often been defined with a few confident words. For example, the first edition of Encyclopaedia Britannica informed its readership that "DEATH is generally considered as the separation of the soul and body; in which sense it stands opposed to life, which consists in the union thereof" (1768, v. 2, p. 309).
