The monsoon of South Asia is among several geographically distributed global monsoons. It affects the Indian subcontinent, where it is one of the oldest and most anticipated weather phenomena and an economically important pattern every year from June through September, but it is only partly understood and notoriously difficult to predict. Several theories have been proposed to explain the ...

In 1000, 1100, 1200, and 1300, China was the most advanced place in the world. Marco Polo (1254-1324) recognized this when he got to China in the late 13th century after traveling through much of Asia. In what is now Europe, this was the period now referred to as the "high" Middle Ages, which fostered the Crusades and witnessed the rise of Venice, the mercantile center that was Marco Polo ...
