Crocodiles (subfamily *Crocodylinae*) or true crocodiles are large semiaquatic reptiles that live throughout the tropics in Africa, Asia, the Americas and Australia. *Crocodylinae*, all of whose members are considered true crocodiles, is classified as a biological subfamily. A broader sense of the term crocodile, *Crocodylidae* that includes *Tomistoma*, is not used in this article.

### **Crocodile - Wikipedia**

Introduction: Crocodiles belong to the Family *Crocodylidae* and were the dominant ruling reptiles called the archosaurs of the Jurassic era of 190 million years ago. They have changed very little since then. Features include an efficient blood oxygenation system, courtesy of a 4-chambered heart; an extra eyelid which clears debris from the eyeball; and limb joints that allow crocodiles a 'high ...
