Daily Progress Checklist - Progress Principle

Progress is the movement towards a refined, improved, or otherwise desired state or, in the context of progressivism, the idea that advancements in technology, science, and social organization can result in an improved human condition; the latter may happen as a result of direct human action, as in social enterprise or through activism, or as a natural part of sociocultural evolution.

Progress - Wikipedia

The harm principle holds that the actions of individuals should only be limited to prevent harm to other individuals. John Stuart Mill articulated this principle in On Liberty, where he argued that, "The only purpose for which power can be rightfully exercised over any member of a civilized community, against his will, is to prevent harm to others." An equivalent was earlier stated in France's ...

Ideas for Progress in College and Career Readiness | ACT

In 1906, Italian economist Vilfredo Pareto created a mathematical formula to describe the unequal distribution of wealth in his country. Pareto observed that 20 percent of the people owned 80 percent of the nation's wealth. He could not know it, but in time that rule would be found to apply with uncanny accuracy to many situations and be useful in many disciplines, including the study of ...

The Many Uses of Pareto's Principle or the 80/20 Rule

Influenza was discovered not by a direct study of the disease in humans, but rather from studies on animal diseases. In 1918, J.S. Koen, a veterinarian, observed a disease in pigs which was believed to be the same disease as the now famous "Spanish" influenza pandemic of 1918.
