Internet addiction disorder (IAD), also known as problematic Internet use or pathological Internet use, is excessive Internet use that interferes with daily life. Addiction, defined by Webster Dictionary as a "compulsive need for and use of a habit-forming substance characterized by tolerance and by well-defined physiological symptoms upon withdrawal", was traditionally used to depict a person ...

HHT is highly penetrant; in a series of 384 patients, Plauchu et al. (1989) found at least 1 manifestation in 97%, while Porteous et al. (1992) found complete penetrance by 40 years of age in a series of 35 British families with 98 affected members. Sixty-two percent of these were clinically affected by age 16, with epistaxes being the presenting feature in 90% of cases.

LIGHT CHAIN deposition disease (LCDD) is a systemic disorder characterized by the deposition of monotypic immunoglobulin light chains (LCs) in various organs.¹ As LCs are overproduced by an abnormal clone of B cells, LCDD is usually described in the course of plasma cell dyscrasias or other lymphoproliferative disorders. However, it can occur in the absence of any detectable hematological ...
