(Greek nous; Latin mens, German Geist, Seele; French ame esprit).. The word mind has been used in a variety of meanings in English, and we find a similar want of fixity in the connotation of the corresponding terms in other languages. Aristotle tells us that Anaxagoras, as compared with other early Greek philosophers, appeared like one sober among drunken men in that he introduced nous, mind ...

Philosophers who accept the idea that all laws of nature are deterministic and that the world is causally closed still cannot understand how an immaterial mind can be the cause of an action. On this view, every physical event is reducible to the microscopic motions of physical particles. The laws of biology are reducible to those of physics and chemistry.

The dihydrogen monoxide parody involves calling water by the unfamiliar chemical name "dihydrogen monoxide" (DHMO), or "hydroxylic acid" in some cases, and listing some of water's

well-known effects in a particularly alarming manner, such as accelerating corrosion and causing suffocation. The parody often calls for dihydrogen monoxide to be banned, regulated, or labeled as dangerous.

Lojban language logo; Many science fiction novels have noted how difficult, illogical, unscientific, and inefficient the English language is (did you know that "ghoti" should be pronounced "fish?"). It is certainly a burden for people to learn as a second language, and even more so to try and teach to an alien race.

it's only stuck in the minds of usage critics. The rest of world happily uses less in all kinds of countable situations, in writing both formal and informal, and including in the situation presented in this question. Any quick search on e.g. the Corpus of Contemporary American English will show copious examples of less being used in the allegedly incorrect way in all kinds of edited writing.
