A lunar eclipse occurs when the Moon passes directly behind Earth and into its shadow. This can occur only when the Sun, Earth, and Moon are exactly or very closely aligned (in syzygy), with Earth between the other two. A lunar eclipse can occur only on the night of a full moon. The type and length of a lunar eclipse depend on the Moon's proximity to either node of its orbit.

The Second Coming Summary. The Second Coming was William Butler Yeats' ode to the era. Rife with Christian imagery, and pulling much inspiration from apocalyptic writing, Yeats' The Second Coming tries to put into words what countless people of the time felt: that it was the end of the world as they knew it, and that nothing else would ever be the same again.

One difficulty in analyzing our economic future is the sheer number of potential crises. When so much could go wrong (and really right, when the exponential technologies I foresee get here), it's hard to isolate, let alone navigate, the real dangers. We are tempted to ignore them all. Ignoring them is usually the right response, too.
