How to Grow Carrots. After planting, gently mulch to retain moisture, speed germination, and block the sun from hitting the roots directly.; Once plants are an inch tall, thin so that they stand 3 inches apart. Snip them with scissors instead of pulling them out to prevent damage to the fragile roots of the remaining plants.

Most of us believe that the best way to motivate ourselves and others is with external rewards like money—the carrot-and-stick approach. That's a mistake, Daniel H. Pink says in, *Drive: The Surprising Truth About What Motivates Us*, his provocative and persuasive new book. The secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct ...

Title says it all, really, but it's such a common misunderstanding I want to expand on this for a bit. A major reason we see so many wrong predictions in the foundations of physics - and see those make headlines - is that both scientists and science writers take falsifiability to be a sufficient criterion for good science.

Just because it's falsifiable doesn't mean it's good science.

Today I found out, before the 17th century, almost all cultivated carrots were purple.. The modern day orange carrot wasn't cultivated until Dutch growers in the late 16th century took mutant strains of the purple carrot and gradually developed them into the sweet, plump, orange variety we have today.

Carrots Used to Be Purple Before the 17th Century

My mission is simple. I want to help successful people achieve positive, lasting change in behavior; for themselves, their people, and their teams.

City of God (Portuguese: Cidade de Deus) is a 2002 Brazilian crime film co-directed by Fernando Meirelles and Kátia Lund, released in its home country in 2002 and worldwide in 2003. The story was adapted by Bráulio Mantovani from the 1997 novel of the same name written by Paulo Lins, but the plot is loosely based on real events. It depicts the growth of organized crime in the Cidade de Deus ...

A big part of the ketogenic diet is keeping a close eye on your macronutrients (aka macros), including protein, carbohydrates and fats. Proper macronutrient balance ensures that your body goes into ketosis, a metabolic state in which your body burns stored fat instead of glucose, which results in the accumulation of ketones (hence the name).
