Basic method. The basic method of all phenomenological investigation, as Husserl developed it himself—and on which he worked throughout his entire lifetime—is the “reduction”: the existence of the world must be put between brackets, not because the philosopher should doubt it but merely because this existing world is not the very theme of phenomenology; its theme is rather the manner ...

What is Existential-Phenomenology? What is Phenomenology? "As good a place to begin as any is the meaning of the term phenomenology itself. It is derived from the two Greek words: *phainomenon* (an "appearance") and *logos* ("reason" or "word," hence a "reasoned inquiry"). Phenomenology is indeed a reasoned inquiry which discovers the inherent essences of appearances.

Sociological theory vs. social theory. Kenneth Allan proposed the distinction between sociological theory and social theory. In Allan's usage, sociological theory consists of abstract and testable propositions about society. It often heavily relies on the scientific method, which aims for objectivity, and attempts to avoid passing value judgments. In contrast, social theory, according to Allan ...
