The Psychology Of Mans Possible

Cryptomnesia is a form of misattribution. It involves the unconscious influence of memory that causes current thoughts to be wrongfully attributed as novel. In other words, individuals mistakenly believe that they are the original generators of the thought.

Misattribution of memory - Wikipedia

Narcissists can be very intense in the early stages of a relationship. They bombard you with love and attention and place you on a pedestal, literally sweeping you off your feet. But unfortunately this person is very often not what they appear to be and before long their true colors begin to shine.

Finding and Correcting Flawed Research Literatures

Sex differences in humans have been studied in a variety of fields. In humans, biological sex is determined by five factors present at birth: the presence or absence of a Y chromosome, the type of gonads, the sex hormones, the internal reproductive anatomy (such as the uterus), and the external genitalia. Genetic sex is determined solely by the presence or absence of a Y chromosome.
