Technological determinism is a reductionist theory that assumes that a society's technology determines the development of its social structure and cultural values. Technological determinism tries to understand how technology has had an impact on human action and thought. Changes in technology are the primary source for changes in society.

Images and Propaganda: From the Sacred to the Profane. Toby Clark's Art and Propaganda in the 20th Century assumes that images are able to convey information quickly and evoke deep emotions in their viewers. This power of the image derives from its ability to convey a message all-at-once, as a gestalt or whole chunk of meaning.

L'année suivante, Jacques Ellul émet lui aussi un jugement sévère : "il me paraît bien remarquable qu'à l'époque où l'on développe l'usage des mathématiques dans les sciences humaines, on puisse employer des vocables aussi imprécis et insignifiants. "Post-industriel", cela veut dire que l'on a dépassé le stade industriel. Soit, mais après ?
