There Life Beyond Earth Answer

Since there is no evidence of intelligent life beyond Earth an accurate answer does not exist.

Is there life beyond Earth - answers.com

Best Answer: I'd say the probability is that there is life beyond earth. Humans put themselves literally in the middle of the universe for much of recorded history, and now we see ourselves more on the edge and overwhelmed by vastness. It just seems natural that the more we know the more displaced we will ...

Is there life beyond earth? | Yahoo Answers

Answers. Most people have wondered if there is life beyond Earth in space. With all of the countless billions of stars and possible planets and moons in space, many people think that under the right conditions, life can exist elsewhere in space. However, there is no evidence for this yet. That's why no one could give a definite answer right now.

Is there life beyond earth? | Yahoo Answers

Yes, there is life beyond Earth. They have said so, point blank and have made their presence known countless times. And in fact, this is known to some among the public.. Many among the public however, ignore that knowledge or hide from it.

Is there life beyond earth? Why is this not known to the ...

Life beyond Earth. If aliens ever sent us a message, scientists hope to pick it up in a remote part of northern California. There, in a clearing nestled amid the volcanoes of the Cascade Range, 42 radio dishes point together at the sky. The dishes, each 20 feet across, form a single, giant scientific instrument called the Allen Telescope Array.
