The Structures Of Everyday Life

These are the second and third paragraphs of the preamble to the Universal Declaration of Human Rights (UDHR), adopted by the United Nations General Assembly on December 10, 1948 without a dissenting vote. It is the first multinational declaration mentioning human rights by name, and the human rights movement has largely adopted it as a charter.

An Introduction to Human Rights

It's easy to make assumptions about a family, based on what is familiar and normal. But many families don't fit the nuclear family mold. This can mean that it's not always immediately apparent how a particular family is structured, and this can cause some confusion and anxiety. So how do we adapt our behavior to avoid making those assumptions in the first place?

3 Ways to Talk About Nontraditional Family Structures ...

When you eat, how you watch TV, and a number of hygiene habits, may be seemingly harmless, but in reality, they could be shaving years off of your life.

This is the magic element for everything on Earth. All life on Earth depends on carbon (C). It is in nearly every biological compound that makes up our bodies, systems, organs, cells, and organelles.

Chem4Kids.com: Carbon: General Info and Everyday Items

Personal life is the course of an individual's life, especially when viewed as the sum of personal choices contributing to one's personal identity.. In ancient past, most people's time was limited by the need to meet necessities such as food and shelter through first hunting and gathering and later subsistence farming and there was not much leisure time.

Personal life - Wikipedia

Structure is an arrangement and organization of interrelated elements in a material object or system, or the object or system so organized. Material structures include man-made objects such as buildings and machines and natural objects such as biological organisms, minerals and chemicals. Abstract structures include data structures in computer science and musical form.
