The Complete Beer Course Boot

A beer mile is a 1-mile (1,609 m) drinking race combining running and speed drinking. Typically, the race takes place on a standard 400-metre or 1/4-mile running track. The race begins at the 1-mile starting line with the consumption of a 12-US-fluid-ounce (355 ml) beer, followed by a full lap around the track. The second lap continues in a similar manner; another 12-ounce beer is consumed ...

Brewing beer is all about working with sugars — glucose (dextrose), fructose, sucrose, maltose, verbose and all the rest. If you are like me, you want someone to cut to the chase and explain what's what without referring to the fact that fructose differs from glucose by having a ketone rather than an aldehyde carbonyl group.
