Thematic analysis is a poorly demarcated, rarely acknowledged, yet widely used qualitative analytic method within psychology. In this paper, we argue that it offers an accessible and theoretically flexible approach to analysing qualitative data. We outline what thematic analysis is, locating it in relation to other qualitative analytic methods that search for themes or patterns, and in ...

A Better Appreciation. Why do some stories last forever while others fade the moment the curtain falls? Performance and presentation certainly plays a role, but in the final analysis it is the existence of an identifiable Storyform that truly determines the lifespan of a particular work of fiction.. A Storyform maintains the thematic explorations of a story.

The following analysis reveals a comprehensive look at the Storyform for Rear Window. Unlike most of the analysis found here—which simply lists the unique individual story appreciations—this in-depth study details the actual encoding for each structural item. This also means it has been incorporated into the Dramatica Story Expert application itself as an easily referenced contextual example.
