The Corporation

In economics, average cost or unit cost is equal to total cost (TC) divided by the number of unit of a good produced (the output Q): $=$. It is also equal to the sum of average variable costs (total variable costs divided by Q) and average fixed costs (total fixed costs divided by Q). Average costs may be dependent on the time period considered (increasing production may be expensive or ...

Average cost - Wikipedia

A multinational corporation (MNC) or worldwide enterprise is a corporate organization which owns or controls production of goods or services in at least one country other than its home country. Black's Law Dictionary suggests that a company or group should be considered a multinational corporation if it derives 25% or more of its revenue from out-of-home-country operations.
