Plot. The book covers several periods from the life of Lazarus Long (birth name: Woodrow Wilson Smith), the culmination of a Lebensborn-style breeding experiment to increase mankind's natural lifespan, known as the Howard Families, after the program's initiator. As a result, he is the oldest living human, now more than two thousand years old. The first half of the book takes the form of several ...

Winter time ! Have fun finding the pairs during the long winter evenings ! - Winter time !

### **Winter time - UpToTen**

Our linear experience of time, combined with our selective memory, means that as we live, humans construct ongoing stories about who we are. That is: our memories influence our present actions (you don't stick your hand in the fire twice) and likewise our present actions influence our memories (sticking my hand in the fire was not in vain: it taught me something).
