The Void is the philosophical concept of nothingness manifested. The notion of the Void is relevant to several realms of metaphysics. The Void is also prevalent in numerous facets of psychology, notably logotherapy.. The manifestation of nothingness is closely associated with the contemplation of emptiness, and with human attempts to identify and personify it.

The Void ebook by Frank Close - Rakuten Kobo

Frank Close writes in the Oxford style, a little eccentric and quite profound. This is the clearest explanation of the Void, the so-called vacuum of empty space, that I have read. He shows very clearly how physicists came to understand the vacuum of space, which is really a quantum plenum.
