Normative generally means relating to an evaluative standard. Normativity is the phenomenon in human societies of designating some actions or outcomes as good or desirable or permissible and others as bad or undesirable or impermissible.

Types of norms. Orders and permissions express norms. Such norm sentences do not describe how the world is, they rather prescribe how the world should be. Imperative sentences are the most obvious way to express norms, but declarative sentences also may be norms, as is the case with laws or 'principles'. Generally, whether an expression is a norm depends on what the sentence intends to assert.

General Overviews. Baxter 1980 and Weil 1983 are seminal works that approach soft law from opposite positions. Baxter 1980 sees in soft law the infinite variety of international law expressing a “different intensity of agreement” (p. 566). Weil 1983 is the author’s most quoted landmark work in which he is critical of the notion of “relative normativity,” and in which he warns us not ...
