Life and work. David Friedman is the son of economists Rose and Milton Friedman. He graduated magna cum laude from Harvard University in 1965, with a bachelor's degree in chemistry and physics. He later earned a master's (1967) and a Ph.D. (1971) in theoretical physics from the University of Chicago. Despite his later career, he never took a class for credit in either economics or law.

Cotton-spinning machinery refers to machines which process (or spin) prepared cotton roving into workable yarn or thread. Such machinery can be dated back centuries. During the 18th and 19th centuries, as part of the Industrial Revolution cotton-spinning machinery was developed to bring mass production to the cotton industry. Cotton spinning machinery was installed in large factories, commonly ...

Through a series of fortunate coincidences, two weeks ago I came into possession of a Model 40 Index milling machine. The mill had suffered at least a decade of neglect, but the price was right (free!, "If you can fix it, you can have it" were the previous owners words), and it appeared worth taking on the challenge of restoring it.
