Michael Talbot. As a young man, he moved to New York City, where he pursued a career as a freelance writer, publishing articles in Omni, The Village Voice, and others, often exploring the confluence between science and the spiritual. Talbot published his first novel, The Delicate Dependency: A Novel of the Vampire Life as an Avon paperback original...

Michael Talbot (Author of The Holographic Universe)

Talbot has created a great book. The Holographic Universe is a discourse on a new way (paradigm) for viewing life and the Universe, based primarily on revelations from quantum physics.

The Holographic Universe book by Michael Talbot

Michael Talbot explains what a hologram is and then goes on to argue that the holographic model can be used to explain multiple personality disorders (extraordinary! - if you know nothing about MPD, then you absolutely must read this section), psychokinesis, miracles, the human energy field (or energy bodies), past/present/future existing seamlessly together, near death experiences (NDEs), UFO sightings and much more.

The Holographic Universe: The Revolutionary Theory of ...

Michael Coleman Talbot (September 29, 1953 – May 27, 1992) was an American author of several books highlighting parallels between ancient mysticism and quantum mechanics, and espousing a theoretical model of reality that suggests the physical universe is akin to a hologram based on the research and conclusions of David Bohm and Karl H. Pribram.

Michael Talbot (author) - Wikipedia

The most notable effort of the late Michael Talbot, the Holographic Universe is an interesting read based around a premise which is still debated amongst the scientific community today. This is definitely food for thought and a book which, if you have no familiarity with the subject, will force you to stop and look at life under a different light.
