The unstoppable force paradox, also called the irresistible force paradox, shield and spear paradox, is a classic paradox formulated as "What happens when an unstoppable force meets an immovable object?" The immovable object and the unstoppable force are both implicitly assumed to be indestructible, or else the question would have a trivial resolution.

Evolution versus a basic law of nature. Scores of distinguished scientists have carefully examined the most basic laws of nature to see if Evolution is physically possible—given enough time and opportunity. The conclusion of many is that Evolution is simply not feasible. One major problem is the 2nd Law of Thermodynamics. law of science: basic, unchanging principle of nature; a ...

The "four causes" are elements of an influential principle in Aristotelian thought whereby explanations of change or movement are classified into four fundamental types of answer to the question "why?". Aristotle wrote that "we do not have knowledge of a thing until we have grasped its why, that is to say, its cause." While there are cases where identifying a "cause" is difficult, or in which ...

The Chronological 4 Gospels are the accounts of Matthew, Mark, Luke, and John, with a few verses from Acts and 1st Corinthians, combined in chronological form. This enables a person to read and study all four as a unit. One can read Matthew's account of an event, and then read the same event in the other accounts.
