This is why you remain in the best website to see the incredible ebook to have.

The Ecology Of Freedom Emergence

The question of religion and politics is not the same as the question of church and state. Failure to make this distinction results in confusion.

Church and State, Politics and Religion

The biomass is the mass of living biological organisms in a given area or ecosystem at a given time. Biomass can refer to species biomass, which is the mass of one or more species, or to community biomass, which is the mass of all species in the community. It can include microorganisms, plants or animals. The mass can be expressed as the average mass per unit area, or as the total mass in the ...

Biomass (ecology) - Wikipedia

In philosophy, systems theory, science, and art, emergence occurs when an entity is observed to have properties its parts do not have on their own. These properties or behaviors emerge only when the parts interact in a wider whole. For example, smooth forward motion emerges when a bicycle and its rider interoperate, but neither part can produce the behavior on their own.

Emergence - Wikipedia

Environmental Ethics. The field of environmental ethics concerns human beings' ethical relationship with the natural environment. While numerous philosophers have written on this topic throughout history, environmental ethics only developed into a specific philosophical discipline in the 1970s. This emergence was no doubt due to the increasing awareness in the 1960s of the effects that ...

Both the American Revolution and French Revolution were the products of Enlightenment ideals that emphasized the idea of natural rights and equality. With such an ideological basis, it becomes clear when one sets out to compare the French Revolution and American Revolution that people felt the need to be free from oppressive or tyrannical rule of absolute monarchs and have the ability to live ...

Abstract. The paper presents, firstly, a brief review of the long history of information ethics beginning with the Greek concept of parrhesia or freedom of speech as analyzed by Michel Foucault. The recent concept of information ethics is related particularly to problems which arose in the last century with the development of computer technology and the internet.

Considering the possibility of a truly proletarian art, the great English literary critic William Empson once wrote, "the reason an English audience can enjoy Russian propagandist films is that the propaganda is too remote to be annoying." Perhaps this is why American artists and bohemians have so often taken to the political iconography of far-flung regimes, in ways both romantic and ironic.

Theodicy, (from Greek theos, "god"; dikē, "justice"), explanation of why a perfectly good, almighty, and all-knowing God permits evil. The term literally means "justifying God." Although many forms of theodicy have been proposed, some Christian thinkers have rejected as impious any attempt to fathom God's purposes or to judge God's actions by human standards.
