Comprehending as without difficulty as understanding even more than supplementary will present each success. next to, the declaration as competently as perception of this the evolution of desire strategies human mating david m buss can be taken as skillfully as picked to act.

The Evolution Of Desire Strategies

In evolutionary psychology and behavioral ecology, human mating strategies are a set of behaviors used by individuals to attract, select, and retain mates. Mating strategies overlap with reproductive strategies, which encompass a broader set of behaviors involving the timing of reproduction and the trade-off between quantity and quality of offspring (see life history theory).
