Overview. Krauss discusses the physics involved in various concepts and objects described in the Star Trek universe. He investigates the possibility of such things as inertial dampers and warp drive, and whether physics as we know it would allow such inventions. He also discusses time travel, light speed, pure energy beings, wormholes, teleportation, and other concepts that are staples of the ...

Gravity (from Latin gravitas, meaning 'weight'), or gravitation, is a natural phenomenon by which all things with mass or energy—including planets, stars, galaxies, and even light —are brought toward (or gravitate toward) one another. On Earth, gravity gives weight to physical objects, and the Moon's gravity causes the ocean tides. The gravitational attraction of the original gaseous matter ...
