Premodern Times. There is no good way to date the evolution of homo sapiens sapiens from earlier homo sapiens variants as those became progressively less "archaic"—the most common guesses range between 150,000 and 200,000 years ago, but the fossil evidence is more suggestive in the 100,000 to 160,000 year range, and there is the possibility that some of the early fossils may have ...
