Isabella Marie "Bella" Swan (later Bella Cullen) is the fictional protagonist of the Twilight series, written by Stephenie Meyer. The Twilight series is primarily narrated from Bella's point of view.. In Twilight, Bella moves to her father's home in Forks, Washington, meets the mysterious Cullen family, and falls in love with Edward Cullen. However, she soon discovers that the family is a coven ...

You are missing out on some of the most offensively, horrible bad stuff ever. But in a good way. You should watch the movies, or watch internet celeb Spoony's reviews of the movies (which are really funny) on the internet or google what the actor for the vampire (Robert Pattinson) had to say about the book.

The Fermi paradox is a conflict between the argument that scale and probability seem to favor intelligent life being common in the universe, and the total lack of evidence of intelligent life having ever arisen anywhere other than on the Earth.. The first aspect of the Fermi paradox is a function of the scale or the large numbers involved: there are an estimated 200-400 billion stars in the ...

2: Bootstrap Paradox. A Bootstrap Paradox is a type of paradox in which an object, person, or piece of information sent back in time results in an infinite loop where the object has no discernible origin, and exists without ever being created. It is also known as an Ontological Paradox, as ontology is a branch of philosophy concerned with the nature of being, or existence.
