Summary. Egeon, a merchant of Syracuse, is condemned to death in Ephesus for violating the ban against travel between the two rival cities. As he is led to his execution, he tells the Ephesian Duke, Solinus, that he has come to Syracuse in search of his wife and one of his twin sons, who were separated from him 25 years ago in a shipwreck.

Errors and Signals and Traps (Oh My!) - Part 1. In this lesson, we're going to look at handling errors during the execution of your scripts. The difference between a good program and a poor one is often measured in terms of the program's robustness. That is, the program's ability to handle situations in which something goes wrong.

If the server sends you a TLS alert unknown ca like in this case then the server does not accept the client certificate you have send (-E my.pem). One reason for this might be that you have used the wrong certificate.

### **ssl - What does "tlsv1 alert unknown ca" mean? - Server Fault**

Idiosyncratic inverses. We need to be sympathetic about the student's difficulty in learning the language of mathematicians. That language is a bit more consistent than English, but it is not entirely consistent -- it too has its idiosyncrasies, which (like those of English) are largely due to historical accidents, and not really anyone's fault.

### **Common Errors in College Math**

Assuming an already configured machine named tristan, let's look at the IP addressing and routing table. Next we'll examine how the machine communicates with computers (hosts) on the locally reachable network. We'll then send packets through our default gateway to other networks. After learning what a default route is, we'll look at a static route.

### **1.2. Reading Routes and IP Information**

On Saturday, Asiana Airlines flight 214, a Boeing 777, crashed upon landing at San Francisco Airport. Through a combination of luck and robust aircraft design, only 2 people were killed; a surprising outcome given the photos of the wreckage.

### **What We Know About Spreadsheet Errors**

As you surf the Web, information is being collected about you. Web tracking is not 100% evil -- personal data can make your browsing more efficient; cookies can help your favorite websites stay in business. But, says Gary Kovacs, it's your right to know what data is being collected about you. He unveils a Firefox add-on, Collusion, to do just that.

### **Gary Kovacs: Tracking our online trackers | TED Talk**

The holidays are just around the corner and growing up as a kid the best toys were always the ones requiring batteries. Batteries can be a significant hazard as they are found in every household and the caustic material inside of the battery can lead to burns.
