Archon: The Light and the Dark is a 1983 video game developed by Free Fall Associates and one of the first five games published by Electronic Arts. It is similar in concept to chess, in that it takes place on a board with squares, but, instead of fixed rules when landing on another player's piece, an arcade-style fight takes place to determine the victor.

Light pollution is a side effect of industrial civilization. Its sources include building exterior and interior lighting, advertising, commercial properties, offices, factories, streetlights, and illuminated sporting venues.

### **Light Pollution**

The enormously successful Pink Floyd album Dark Side of the Moon was released in 1973, just when the Lucas's film was in preparation. That may have influenced the name but what is more likely to have influenced the concept was Jungian psychology's model of the shadow aspect of personality, that is, the unconscious or 'dark' side of personality.

### **'The dark side' - the meaning and origin of this phrase**

1.. IntroductionThe light/dark test is based on the innate aversion of rodents to brightly illuminated areas and on the spontaneous exploratory behaviour of rodents in response to mild stressors, that is, novel environment and light (Crawley and Goodwin, 1980). A natural conflict situation occurs when an animal is exposed to an unfamiliar environment or novel objects.
