This Is the Life (Amy Macdonald album) - Wikipedia

The definition of life has long been a challenge for scientists and philosophers, with many varied definitions put forward. This is partially because life is a process, not a substance. This is complicated by a lack of knowledge of the characteristics of living entities, if any, that may have developed outside of Earth.

So not only have Estrons finally released the album I've craved for the past couple years, but they've improved as a live act no end - and they were pretty darned good before. I see in them what I saw in Wolf Alice just before they cracked the big time, only I think Estrons actually have a little something extra.
