The Red Summer refers to the late winter, spring, summer, and early autumn of 1919, which were marked by hundreds of deaths and higher casualties across the United States, as a result of racial riots that occurred in more than three dozen cities and one rural county. In most instances, whites attacked African Americans. In some cases many black people fought back, notably in Chicago and ...

Summer learning loss is the loss of academic skills and knowledge over the course of summer holidays. The loss in learning varies across grade level, subject matter, and family income. A common finding across numerous studies is that on average, students score lower on standardized tests at the end of the summer than they do at the beginning of summer (on the same test).
