The Pinocchio paradox arises when Pinocchio says "My nose grows now" and is a version of the liar paradox. The liar paradox is defined in philosophy and logic as the statement "This sentence is false." Any attempts to assign a classical binary truth value to this statement lead to a contradiction, or paradox. This occurs because if the statement "This sentence is false" is true, then it is ...

The chance that two people in the same room have the same birthday — that is the Birthday Paradox ☐☐. And according to fancy math, there is a 50.7% chance when there are just 23 people + This is in a hypothetical world. In reality, people aren't born evenly throughout the year, and leap years are excluded.

Sometimes the best observations about life are made when one is away from the familiar -- be it people, jobs, hobbies or past-times. A recent autumn drive through the scenic Cascade Mountains of Washington State gave me chance to reminisce about my love for online gaming. A beautiful vista of a lake or a forest would unlock a particular memory of when I was playing online during those first ...
