A string figure is a design formed by manipulating string on, around, and using one's fingers or sometimes between the fingers of multiple people. String figures may also involve the use of the mouth, wrist, and feet. They may consist of singular images or be created and altered as a game, known as a string game, or as part of a story involving various figures made in sequence (string story).

Thread.Sleep(0) relinquishes the thread's current time slice immediately, voluntarily handing over the CPU to other threads. Framework 4.0's new Thread.Yield() method does the same thing — except that it relinquishes only to threads running on the same processor.. Sleep(0) or Yield is occasionally useful in production code for advanced performance tweaks.
