Artificial intelligence has close connections with philosophy because both share several concepts and these include intelligence, action, consciousness, epistemology, and even free will. Furthermore, the technology is concerned with the creation of artificial animals or artificial people (or, at least, artificial creatures) so the discipline is of considerable interest to philosophers.

Let's face it, building muscle is hard, no matter what "diet" you follow. And supporting your athletic endeavours with a plant-based diet can be challenging too, especially if you're new to the vegan lifestyle. I've been there—desperately hoping to gain muscle and weight eating only plants. After decades of learning from personal failures and successes, [...]
