Capitalism is a system of largely private ownership that is open to new ideas, new firms and new owners—in short, to new capital. Capitalism's rationale to proponents and critics alike has long been recognized to be its dynamism, that is, its innovations and, more subtly, its selectiveness in the innovations it tries out.

Theory of Capitalism | The Center on Capitalism and Society

Post-capitalism includes a number of proposals for a new economic system to replace capitalism, examine more advanced forms, or otherwise speculate on the fate of the current form of the social order. According to some classical Marxist and some social evolutionary theories, post-capitalist societies may come about as a result of spontaneous evolution as capitalism becomes obsolete.
