Concept Math - Math Tuition in Singapore by Janice Chuah

Banking model of education is a term used by Paulo Freire to describe and critique the traditional education system. The name refers to the metaphor of students as containers into which educators must put knowledge. Freire argued that this model reinforces a lack of critical thinking and knowledge ownership in students, which in turn reinforces oppression, in contrast to Freire's understanding ...

The Kodály Concept. The Kodály (click here for the correct pronunciation) concept was inspired by the philosophies of the Hungarian composer and educator, Zoltan Kodály (1882 – 1967). Throughout Kodály's writings are the notions that a person cannot be complete without music and that music serves to develop a person on all levels – emotionally, spiritually and intellectually.

Frugal innovation or frugal engineering is the process of reducing the complexity and cost of a good and its production. Usually this refers to removing nonessential features from a durable good, such as a car or phone, in order to sell it in developing countries. Designing products for such countries may also call for an increase in durability and, when selling the products, reliance on ...
