The Constitution of Liberty is a book by Austrian economist and Nobel Prize recipient Friedrich A. Hayek. The book was first published in 1960 by the University of Chicago Press and it is an interpretation of civilization as being made possible by the fundamental principles of liberty, which the author presents as prerequisites for wealth and growth, rather than the other way around.

A constitution is an aggregate of fundamental principles or established precedents that constitute the legal basis of a polity, organisation or other type of entity, and commonly determine how that entity is to be governed.. When these principles are written down into a single document or set of legal documents, those documents may be said to embody a written constitution; if they are written ...
