*The Drunken Botanist: The Plants That Create the World's Great Drinks*. Every great drink starts with a plant. Sake began with a grain of rice. Scotch emerged from barley. Gin was born from a conifer shrub when a Dutch physician added oil of juniper to a clear spirit, believing that juniper berries would cure kidney disorders.

### **The Drunken Botanist: The Plants That Create the World's ...**

NPR stories about *The Drunken Botanist*. The cherry, *prunus cerasus* — specifically, the variety *marasca* — is the only plant that appears in the Manhattan cocktail in an easily recognizable form. But as author Amy Stewart explains, the maraschino garnish is far from the only horticultural element of the cocktail.

### **The Drunken Botanist : NPR**
