A biome is an ecological community of plants and animals, soil and water and air, living together in a particular climatic zone. There are six land biomes: arctic tundra, taiga, temperate deciduous forest, tropical rain forest, tropical savannah, and desert. Each biome has specific climatic conditions - temperature, precipitation amounts, soil conditions, vegetation, and animals.

Begin Planning Your Backpacking Adventure. A backpacking trip in Denali is unlike backpacking in most other national parks. Denali is about the size of Vermont, with only a handful of trails - most of which are near the entrance of the park for day-hiking, rather than overnight backpacking. Backpacking permits are issued only in person, no more than a day before you begin your backcountry ...
