Capitalism is an economic system based on the private ownership of the means of production and their operation for profit. Characteristics central to capitalism include private property, capital accumulation, wage labor, voluntary exchange, a price system, and competitive markets. In a capitalist market economy, decision-making and investment are determined by every owner of wealth, property ...

Animal Spirits: How Human Psychology Drives the Economy, and Why It Matters for Global Capitalism (2009) is a book written to promote the understanding of the role played by emotions in influencing economic decision making. According to the authors, economists have tended to de-emphasize the importance of emotional factors, as the effects of emotions are difficult to model and quantify.

An entrepreneurial spirit is at the heart of the work we do across the Kauffman Foundation every day. Our founder, Mr. Kauffman, believed it was a fundamental right for anyone who had a big idea to be able to bring it to life. We work with entrepreneurs, empower them with tools and resources, and work to break down barriers that stand in the way of starting and growing their businesses.
