Accelerated Resolution Therapy - Treating Trauma

Homeopathy can treat shock, trauma and grief very effectively. We all know that severe physical pain can cause an emotional response, and our system can also respond in reverse.

Shock, Grief, Trauma and Homeopathy - The Homeopathic Coach

Definitions. Patrick Carnes developed the term to describe "the misuse of fear, excitement, sexual feelings, and sexual physiology to entangle another person." A simpler and more encompassing definition is that traumatic bonding is: "a strong emotional attachment between an abused person and his or her abuser, formed as a result of the cycle of violence."

Traumatic bonding - Wikipedia

The NCTSN has produced dozens of webinar series, comprised of virtual presentations by expert researchers and practitioners, on various topics in the field of child traumatic stress. Most webinars are from 60 to 90 minutes in length and are available for continuing education credit.

Trauma — the blanket term for any physically or psychologically damaging experience — is sadly common in our society. According to the National Center for PTSD, roughly 60% of men and 50% of women will experience at least one traumatic event during their lifetimes. Trauma can cause a wide range of long-lasting, negative health effects, including insomnia and other sleep-related problems.

How Does Trauma Affect Sleep? | Tuck Sleep

Post-Traumatic Stress Disorder. Post-Traumatic Stress Disorder (PTSD) is a condition that can develop following exposure to a traumatic event during which there was threat of serious injury or death to oneself or others, and intense fear, horror, or helplessness was experienced in response to the event.

Post-Traumatic Stress Disorder (PTSD) is a trauma and stress related disorder that may develop after exposure to an event or ordeal in which death or severe physical harm occurred or was threatened.

Post-Traumatic Stress Disorder | Psychology Today

Nelson-Gardell and Harris (2003) hypothesize that a worker's ability to empathize with clients may itself be a risk factor for STS. They suggest that although empathizing with a traumatized client helps the worker understand the client, the empathic connection may actually transmit the client's trauma to the worker.

Traumatic Stress and Child Welfare Workers

Post-Traumatic Stress A Symptom Not A Disorder. ART International considers post-traumatic stress a symptom and not a disorder. Post-traumatic stress and other traumas can be caused by exposure to war, natural disasters, sexual assault, physical and emotional abuse, accidents, death and other distressing situations that leave lasting memories which can interfere with life as usual.
