The 21 grams experiment refers to a scientific study published in 1907 by Duncan MacDougall, a physician from Haverhill, Massachusetts. MacDougall hypothesized that souls have physical weight, and attempted to measure the mass lost by a human when the soul departed the body. MacDougall attempted to measure the mass change of six patients at the moment of death.

getdestroyed-staydestroyed:. Okay this is a REALLY good-ass question in relation to world-building because in my opinion, reconciling human cultural and race relations when you toss a completely different one into the mix is a circle writers have been struggling to square ever since more modern fantasy and sci-fi tried to explore it.. It's impossible to talk about race without historical ...
