Historian and Doctor of the Church, born 672 or 673; died 735. In the last chapter of his great work on the "Ecclesiastical History of the English People" Bede has told us something of his own life, and it is, practically speaking, all that we know. His words, written in 731, when death was not far off, not only show a simplicity and piety characteristic of the man, but they throw a light on the ...

The arrangement apparently once delineated both pairs of Solstices and Equinoxes with great precision, employing a double set of spirals as an integral part of the scheme. Considered the work of the Anasazi (700 - 1600 BCE, Krupp 1983:152), it has apparently deteriorated in recent times, but in working order it must surely have ranked as one of the most impressive solar sites encountered anywhere.
