H. G. Wells' The Shape of Things to Come is a 1979 Canadian science fiction film. Although credited to H. G. Wells, the film takes only its title and some character names from The Shape of Things to Come, Wells' speculative novel from 1933. The film's plot has no relationship to the events of the book. The book predicts events such as a Second World War and the collapse of social order until a ...

Running is the king of cardio. Running even five to 10 minutes a day, at slow speeds (how does a nice 12-minute mile sound to you?) is associated with a drastically reduced risk of dying from cardiovascular disease, according to a landmark study in the Journal of the American College of Cardiology. Compared with never-runners, regular runners have half the chance of dying from heart disease.
